Chapter 6: Data Gathering and Analysis

1. Introduction

The goal of this study is to develop a web application that can be used to enhance communication between developers and management at a South African software development company.

This chapter will focus on giving a summary of the study in Section 2, followed by limitations and future research in Section 3. Section 4 follows with the conclusion of the chapter.

2. Summary of the study

This study consisted of six chapters. Each of the chapters discussed the following:

Chapter 1 –

Chapter 2 –

Chapter 3 –

Chapter 4 –

Chapter 5 –

Chapter 6 –

3. Limitations and future research

The nature of and scope of the research paper is limited and forms part of an NWU Honours project. Some aspects were excluded from the study and can be improved on in a further study.

- More participants in the suggestion phase of the study
- Adding more features to the artefact
-

4. Conclusion
