#### Introduction

For this assignment we were asked to make a poster on MongoDB's data storage architecture and how data is stored in MongoDB. There should be references to Mongos/ Shards and all the technical things surrounding it. Referring to the image bellow, people without an understanding of IT should understand how data fits in the architecture of MongoDB.

## Architecture of MongoDB NoSQL Database

The poster will be attached in the same zip file as this document in png and pdf format.

## References in the poster

- 1. What is MongoDB? (IntelliPaat, 2021)
- 2. What is MongoDB Atlas? (Kirjanov, 2021)
- 3. What About Rows And Columns? (IntelliPaat, 2021)
- 4. The Data Model Used (CloudDuggu, 2020)
- 5. Why use MongoDB (Schaefer, 2020)
- 6. Advantages of using MongoDB (IntelliPaat, 2021)
- 7. Example of document in MongoDB (IntelliPaat, 2021)
- 8. Mongos/Shards (Pedamkar, 2021)
- 9. MongoDB Architecture (IntelliPaat, 2021)
- 10. Important MongoDB Facts (IntelliPaat, 2021)
